

Final programme

Young Scientist Satellite Conference (YSC)

Uppsala, Sweden
19-21 May 2017

Improving your skills for research in drug discovery, drug development and clinical usage

A pre-satellite of
the PSWC 2017 Congress

YSC
UPPSALA
19-21 MAY 2017
Young Scientist
Satellite Conference

The Young Scientist Satellite Conference of the PSWC 2017 is an exciting occasion for future scientists to meet, discuss and present their science in many forms such as oral sessions, poster sessions and workshops.

This will also be an opportunity to gain knowledge from the experts attending the Pharmaceutical Sciences World Congress.

The YSC will take place in Uppsala, home to the oldest university in Scandinavia, founded in 1477. This vibrant academic city possesses many historic sites as well as cutting edge research. The city is located a short train ride away from the PSWC in Stockholm.

At the YSC, young scientists will be given the opportunity to present their research in three different tracks:

- Fundamental & translational science and targeting sciences
- Drug delivery, formulation and manufacturing sciences
- Regulatory sciences and science-based practice

ATTEND THE YSC AND PSWC 2017 TO:

- Be at the only truly global pharmaceutical sciences congress in the world
- Build your international network and meet key opinion leaders in pharmaceutical sciences
- Learn what will happen in the future from leading experts
- Hear high level speakers share their latest research
- Enjoy the beautiful cities of Uppsala and Stockholm

'Having access to minds from a variety of fields developed my understanding of medicines throughout their life.'

'Through experiencing PSWC I was better informed when selecting a pathway in industry after studies.'

Kenneth Lee /
Monash University
